GUEST GUIDEBOOK

EXPERIENCE YOUR CAYMAN PARADISE

GET READY TO EMBARK ON AN UNFORGETTABLE JOURNEY TO GRAND CAYMAN,

WHERE EVERY MOMENT PROMISES
ADVENTURE AND DISCOVERY.

Our **Guest Guidebook** is your passport to unlocking the essence of the Cayman Islands, providing you with invaluable insights and local tips to ensure your vacation is nothing short of extraordinary. Should you require additional details about specific properties or activities, please feel free to reach out to us anytime. We're here to make your experience truly exceptional.

Cayman Islands Beaches:

Experience the beauty of Cayman Islands Beaches, where the renowned Seven Mile Beach awaits with its ever-changing allure. While the shifting sands add a dynamic touch, it's important to note that the beach landscape may vary due to natural elements like storms. However, don't let this deter you! Even during these times, there are still plenty of opportunities to enjoy the sun and sea.

When the beach undergoes these changes, property owners take proactive steps to ensure guest comfort and safety. Loungers and umbrellas may be relocated to nearby grassy areas, and clear signage will guide you to alternative beach access points. For a wider expanse of Seven Mile Beach, venture to the public beach access paths conveniently situated near the Sovereign condominium complex or similar locations. Keep an eye out for the inviting brown '**PUBLIC BEACH ACCESS**' signs marking your way to endless seaside adventures.

PASSPORTS:

Attention all travelers! Before embarking on your journey to the breathtaking Cayman Islands, ensure that your passport is valid for entry and departure. Passport renewal processes can often be lengthy, so it's crucial to plan ahead.

Take a moment to double-check the expiration date on your passport to avoid any unforeseen hiccups. Remember, we want your trip to be smooth sailing, and expired passports can lead to disappointment and canceled plans.

Please be proactive in verifying your passport's validity, as we want to ensure that your adventure in the Cayman Islands is nothing short of extraordinary.

CARS DRIVE ON THE LEFT SIDE OF THE ROAD IN CAYMAN.

MORE INFORMATION CAN BE FOUND ON OUR CAYBLOG

<https://caymanvacation.com/driving-in-grand-cayman/>

- **A visitor's driving permit** is required for all travelers who plan to drive in Cayman. Fortunately, these can easily be obtained from car rental companies as well as the local police stations. You will have to pay a registration fee and show a valid license from your home country or an international driving permit.
- **Traffic Circles / Roundabouts:** Always yield to a roundabout and remember to enter on the left (roundabouts go clockwise here in Grand Cayman). Do not stop to admit cars entering the roundabout from the left.
- **Speed Limits** - Speed limits in built-up areas vary between 25 mph and 30 mph. The maximum speed limit on the open road is 50 mph.
- **Know your signs** - Road Signs here follow the UK system. Please be aware of what each sign means. Speed limits signs are circular with a red circle around the maximum MPH limit. A larger circle sign indicates you are entering into that speed zone, smaller circle signs remind you the speed limit of the zone you are in.
- **Driving at night** - Use caution when driving at night as many roads narrow without much shoulder.

CAR RENTALS

If you are interested in renting a car after you've arrived, we recommend booking a hire car ahead of time, especially in high season and if you are planning to stay on the more coastal outskirts of the island.

OUR SUGGESTIONS:

TRANSPORTATION

Should you need transportation whilst visiting the Cayman Islands here's a few options:

PUBLIC BUS:

This runs up and down West Bay Rd. The buses can be identified by numbers in a colored circle.

- There are some bus stops along major routes, but you can flag down a passing bus at any point.
- When you want to get off, just let your driver know!
- Fares range from CI\$2 for short trips to CI\$5 for longer trips to East End or Cayman Kai.

<https://www.caymantransport.ky/transportation-services/public-bus>

There are many taxi companies available and searchable online. An easy one to remember is: **345-777-7777**

- You can download **CIGO App** which lets you know what a fare will be.

CAYMANVACATION.COM TRAVEL TIPS

- Cayman is on Eastern Standard Time and does not observe daylight savings (which means that half the year, Cayman Island is on US Central Time, and the other half is on US Eastern Time).
- For local forecasts visit <http://www.weather.gov.ky>
- The local currency is Cayman Islands dollar, commonly referred as CI.
- US dollars are generally accepted island-wide, however expect to receive your change in CI. (Exchange rate: US\$1 = CI \$.80, subject to daily fluctuations.)

- Piped water in the Cayman Islands is completely safe to cook with or drink. The water is originally pumped from the sea and then purified by reverse osmosis.
- Check with your cellular service (ideally before you arrive) to understand what roaming fees and data charges will apply when using your phone during your visit in the Cayman Islands. Visitors typically find the best way to manage international calls / data is to set up an international mobile plan with their local carrier.
- Many businesses are closed on Sundays, but you'll find that most restaurants and bars remain open, along with a few markets.
- Please be mindful that driving around the island during peak commuter hours (approximately mornings 7-9am; evenings 4:30 -7pm) or Saturdays (when everyone is getting their errands done) can mean heavy traffic.

Plan accordingly for any excursions or when leaving for the airport.

- Unless you like crowds and traffic, we recommend avoiding the George Town waterfront when there are 2 or more cruise ships in.

View the ship schedules here:

<https://www.caymanport.com/ship-schedules-calendar> (filter by Cruise Ships)

- Many restaurants/bars will automatically add gratuity. While it's common to include a little more for great service (18% - 22% gratuity is typical for good-great service), you should always check to determine what's been added first.

* SHOP NOW *

Camana Bay (George Town/SMB)

<http://www.camanabay.com>

An outdoor mall complete with restaurants, bars, shops, kids water fountains, movie theatre and more.

West Bay Road Plazas

If you are a shopper – you may enjoy simply strolling down West Bay Rd and poking into the various plazas - each with their own selection of stores and restaurants.

Georgetown Waterfront <http://www.camanabay.com/ship-schedules/>

There are an array of shops and restaurants along the George Town waterfront (where the cruise ships come in). Whether you're looking to pick up some gifts and souvenirs or just looking to grab a bite on the waterfront, this is a great place to check out before you leave. Please be warned that when there are cruise ships in port, you should anticipate a lot of traffic and highly congested streets. We recommend checking the Cayman Port Schedule to evaluate the best day to venture into town.

Pure Art (South Sound)

<http://www.pureart.ky>

This is a great store to visit if you are interested in locally made jewelry, art, crafts and accessories. Located in South Sound (5 Denham-Thompson Way & South Church Street).

EXPLORING THE BEACHES & SNORKELING

Explore the plethora of beaches waiting to be discovered across the island.

Here are a few recommendations to start your adventure.

SAFETY FIRST

SAFETY NOTES !

The waters are very safe, but as with any ocean there may be unpredictable currents, wildlife, etc. Please be safe and exercise caution. Below are a few tips and considerations.

- If you are caught in a rip tide, swim parallel to the beach until out of danger. Do not try to swim directly toward the beach or you will tire and possibly drown.
- Adults should always accompany children
- No one should swim or snorkel alone.
- We recommend taking off jewelry when going in the ocean (barracuda love sparklies!).
- If you should find yourself stung by a jellyfish (it occasionally happens), rinse with salt water and then soak the affected part in a vinegar water mixture for 20 minutes or until the stinging stops.

GOVERNOR'S BEACH

Located next to the Governors' House (just past the Westin) is Governors' Beach, a wide sand beach where many locals go with beach chairs and umbrellas to enjoy Seven Mile. There is public parking available, but no restrooms.

SEVEN MILE PUBLIC BEACH

Another popular public beach for both locals and cruise shippers. Seven Mile Public Beach is just before the Kimpton Hotel & Resort and offers a wide beach, cabanas, playgrounds, and volleyball nets. Public parking and restrooms are available.

STARFISH POINT

Located in Cayman Kai, near Kaibo - Drive or boat to this cool spot to relax on a remote beach with waist deep waters and check out some starfish! Just be sure not to take the starfish above the water as this is dangerous for them.

CEMETERY BEACH

Situated on the northern end of Seven Mile Beach, adjacent to one of Cayman's colorful cemeteries. It's a popular beach and snorkel spot for both locals and visitors.

RUM POINT BEACH

Order up the best mudslide on the island, relax on the beach, enjoy the warm Caribbean waters – sometimes stretching out for what feels like forever in waist-deep water. This beach includes a beach bar and restaurant, hammocks, and water sports rentals. For young children, there is a very shallow calm lagoon like area. Sundays can be very busy as the locals descend on this piece of paradise by both sea and land.

SPOTTS BEACH (SPOTTS, PROSPECT)

Nestled off Shamrock Road in Spotts Newlands lies Spotts Beach, offering cabanas, benches, and tables for picnics and barbecues. Enjoy excellent snorkeling thanks to minimal watercraft traffic, with frequent sightings of turtles adding to the allure of Spotts!

EDEN ROCK

Eden Rock is a popular snorkeling and diving location located on the waterfront in town (near the cruise ship port). There is a ladder to enter the water and no cost to access from this point. If you don't have your own snorkel equipment, then you can rent snorkel gear from [Eden Rock Dive Center](#).

SMITH COVE (SOUTH SOUND)

This beach is the closest to a lagoon that you will find in the Cayman Islands. Located at the start of South Sound and George Town on South Church Street. This is a popular spot for locals on the weekends, so we'd recommend trying to visit during the week if you can!

BOAT EXCURSIONS, SNORKEL / DIVE, AND WATERSPORTS RENTAL

Numerous tour operators provide snorkeling, diving excursions, and trips to Stingray Sandbar. While we can suggest a few we're familiar with, we highly recommend researching online to discover recommendations from other visitors as well.

STINGRAY SANDBAR

In waist-deep water, enjoy the unique experience of swimming with and feeding the stingrays.

Don't worry – it's safe! Many years ago local fishermen stopped in the area to clean their daily catch. The fishermen discarded the unwanted fish parts into the water, which attracted hordes of Southern Stingrays to the area. As the fishermen would arrive the Stingrays would gather awaiting their free meal. The Stingrays began to associate the sound of a boat engine with their free meal. Eventually local divers realized the rays could be fed by hand and were docile. Arrange an excursion out to Stingray Sandbar via private charter or a variety of local operators.
